Once at camp, campers are expected to remain at camp. If a youth needs to leave camp, they will not be permitted to come back during the designated camp.

Health Concerns

As recommended by the American Academy of Pediatrics, Pediatricians can advise families on whether it is safe for a child to attend camp based on his or her medical history and should make sure the child is up to date on vaccines.

Staff, campers, and family are encouraged to participate in low-risk activities the 14 days prior to camp arrival, and to make note of their health status for COVID-19 symptoms during this period.

Staff members, counselors, or campers with a fever of 100.4 degrees or higher or any other COVID-19 symptoms, such as cough or shortness of breath will not attend camp.

Any staff or campers who have been in close contact with someone who has tested positive for COVID-19 or is suspected of having COVID-19 will not attend camp.

As usual, campers or counselors who experience any signs or symptoms of illness will be seen by the camp nurse(s) for evaluation. Campers and counselors who experience COVID-19 symptoms will be isolated as a precaution and sent home as soon as possible (picked up by their family member). The Nurse will administer

medications and handle any issues that may arise, including contacting you if there are any questions.
